

Waste Week 2022

Electrical and Electronic Waste

What is E-Waste?

E-waste is any broken or unwanted electrical or tech item with a plug, battery or cable!

A large, chaotic pile of electronic waste (e-waste) is shown. The waste includes various types of cables (black, red, blue, yellow, green), plastic components, metal parts, and other electronic debris. A prominent orange rectangular box is overlaid on the center of the image, containing white text. The background is a dense collection of these discarded items, illustrating the volume of e-waste.

**E-Waste is the FASTEST
growing waste stream
in the WORLD**

Why is E-Waste a problem?

Hazardous waste

Lost resources

Climate change

Loss to the economy

Hazardous waste

Loss to the economy

Climate change

What can YOU do to help?

Fix them!

Pass them on!

Recycle them!

Watch on YouTube: <https://youtu.be/nNxC8J-trnI>

How much E-Waste do we produce in the UK?

Are you ready for Mission e-Waste?

The
Hidden
Treasure
Hunt

Take action against E-Waste!

Be a Treasure Hunter!

- 1.HUNT!** Find e-waste hidden treasure in your home and decide if it should be fixed, passed on or recycled
- 2.RECYCLE!** Take it to be recycled
- 3.REGISTER!** Your recycling to help our school win the Hidden Treasure Hunt and protect the planet!
